Glossary

- 1. Accreditation of Prior Experiential Learning (APEL)**

Accreditation of Prior Experiential Learning, a system to provide access to higher education programmes and academic recognition for individuals with informal and non-formal learning throughout their work and life experiences introduced by Malaysian Qualifications Agency (MQA). It involves the identification, documentation and assessment of prior learning to determine the extent to which an individual has achieved the desired learning outcomes, for access to a programme of study and/or award of credits.
- 2. Accreditation of Prior Experiential Learning for Access (APEL.A)**

Accreditation of Prior Experiential Learning for Access is an assessment for individuals with working experience but lack formal academic qualifications to pursue their studies in Higher Education Institutions (HEIs) at the certificate, diploma, bachelor and masters' levels.
- 3. Accreditation of Prior Experiential Learning for Credit Award (APEL.C)**

Accreditation of prior experiential learning for the purposes of awarding credits for courses within a programme of study.
- 4. Centre for Continuing Education (CCE)**

CCE was set up to support Sunway College Kuala Lumpur (SCKL) to implement the APEL related process.
- 5. Course Learning Outcome (CLO)**

Statement that describes what students are expected to know and be able to perform or attain upon completion of a course. Course Outcome is Learning Outcome (LO) at course level.
- 6. Accreditation**

When a course is accredited by the MQA, it is recognised by the government of Malaysia and education authorities for its compliance with the ethical, operational, and legal standards set by the government.
- 7. Formal Learning**

Intentional learning/programme of study delivered within an organised and structured context (pre-school, primary school, secondary school, technical college and university) that may lead to a formal recognition/recognised qualification.
- 8. Informal Learning**

Learning that takes place continuously through life and work experiences. It is often unintentional learning.
- 9. Non-formal Learning**

Learning that takes place alongside the mainstream systems of education and training. It may have been assessed but does not normally lead to formal certification.

10. Programme

A set of courses that are structured for a specified duration and learning volume to achieve the stated learning outcomes, which usually leads to an award of a qualification.

STUDENT HANDBOOK ON APEL.C

1.0 GENERAL POLICIES AND CRITERIA OF APEL.C

Accreditation of Prior Experiential Learning for Credit Award, known as APEL.C is the credit award for students' prior experiential learning that is relevant and specific towards a course in an accredited programme (full accreditation and provisional accreditation) of Sunway College Kuala Lumpur (SCKL).

SCKL Student Handbook on APEL.C is written to facilitate students' application procedures and processes.

1.1 Eligibility

All registered SCKL students (both local and international) with course-related work and life experiences or knowledge and skills acquired through informal and non-formal learning are eligible to apply, except for students who are taking foundation studies, final year project and dissertation.

Students with prior experiential learning can apply for APEL.C throughout their duration of study, advisably during the first year. Students must refer to each Course Learning Outcome (CLO) of the course prior to pre-application and during the assessment process.

1.2 Benefits of APEL.C

- Recognise learning acquired through work experience, short courses attended or self-learning.
- Encourage admission of adult students to higher education programmes.
- Reduce redundant learning for students; and
- Reduce cost and time of study.
- Encourages lifelong learning.

1.3 General Policies, Rules and Regulations

- APEL.C applies to local and international students registered in any Sunway College (KL) programmes regardless of the mode of entry; whether through the conventional or APEL.A route.
- Example of prior experiential learning include the relevant knowledge, skills and attitudes that may be gained through:
 - ❖ work experience: fulltime, part-time or casual
 - ❖ voluntary ad community work
 - ❖ family duties
 - ❖ hobbies or leisure activities
 - ❖ coaching and mentoring others
 - ❖ attending and participating in seminars, conferences and workshops
 - ❖ attending short courses

- ❖ fluency in other languages
 - ❖ private study and research; and
 - ❖ any other life experiences.
- The non-formal and informal learning which emphasise experiential learning will need to be formally reviewed and assessed. The assessment process will determine if learning has occurred and is in line with the learning outcomes of the course(s) concerned. It is the learning and not the experience of the students which is being evaluated.
 - APEL.C will be implemented for all areas and levels of qualifications in the Malaysian Qualifications Framework (MQF) except for final year project-based subjects and dissertations.
 - APEL.C is confined to courses in programmes that have obtained at least provisional accreditation from MQA.
 - Credit will only be awarded against authenticated documentary evidence of learning and not for specific experiences. It is the achievement of outcomes of learning that is being recognized.
 - APEL.C not applicable to retrieve a failed module.
 - Students who are not successful in the APEL.C assessment will have to complete the course through the normal process in their respective programme of studies.
 - Students may apply for APEL.C at any time during their studies. However, students may be advised to submit their applications for APEL.C during the first year of study.
 - Students are not allowed to apply APEL.C courses which the student has already registered and undertaken during the period of study. This includes repeating courses.
 - Courses that form part of the programme structure under professional bodies may also be considered for APEL.C, subject to acceptance and approval by relevant professional bodies. Students will be informed on acceptance of courses for APEL.C by related professional bodies.

1.4 Awards of Credit

- The course that has been awarded credit through APEL.C will appear in the transcript of the student as 'CT(APEL)'. It will not be considered in the calculation of GPA or CGPA. However, the credits awarded for the course will be counted towards the total credit requirement for graduation.
- **The maximum percentage of credit transfer through APEL.C is 30% of the minimum graduating credits of a specific programme of study.** BUT, if students who have had both formal education and working experience can apply for 30% APEL.C credit transfer and 30%

formal education credit transfer. Example: a student with a relevant certificate (Level 3) and work experience can apply for 30% APEL.C credit and 30% formal education credit when enrolling in a diploma course.

- Credits awarded through APEL.C can be transferred automatically to another programme within the same institution if the course for which credits have been awarded through APEL.C has the same learning outcomes (minimum 80% similarity).
- The maximum credit transfer allowed through APEL.C at the various MQF levels is illustrated in Table 1.

Table 1: Maximum credit transfer allowed through APEL.C at the various MQF levels

1.5 Criteria for Awards

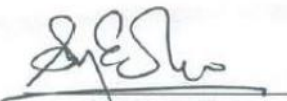

- For both Challenge Test and/or Portfolio Based Assessment, an applicant must achieve at least 50% of each course learning outcome.
- Credits awarded through APEL.C must be based on demonstrated and evidence-based learning; and not solely on the basis of claiming the experience itself.

- Successful applicants of APEL.C for a registered course will be awarded the full credits for the course. The credits awarded must be equivalent to the credit value of the course applied for APEL. C. There will be no partial credit award for a single course.
- Credits awarded for a course are only applicable to the specific course applied for. Credits are not automatically applicable to prerequisites (if any) of the specific course.
- Assessment for credit award should be carried out separately for each course. Credit award cannot be granted on a block basis.
Example: Marketing (I) course should be made separately with Marketing (II) course.

5.0 ASSESSMENT INSTRUMENT

The assessment of APEL.C is based on the evidence of the attainment of learning outcomes of a course via a Challenge Test or submission of Portfolio. Students can opt to undertake either a Challenge Test or submission of Portfolio depending on the nature of the course and upon advice by the appointed APEL.C Advisor.

5.1 Challenge Test

A Challenge Test is a proctored standard test to assess if the student has achieved the subject learning outcomes. Depending on the nature and discipline of the subject, the Challenge may be designed as a written test, oral examination and/or practical or performance assessment.

A combination of several methods of assessments maybe required to appropriately measure prior experiential learning of the student that meets the learning outcome of the subject. Example of methods of assessment that may be developed by the assessors are as shown below in Table 4: Methods and Types of Assessment or Validation.

Ultimately, the development and design of the Challenge Test will be based on the Course Learning Outcome (CLO) taking into consideration the suitability of the types of tests in relation to the students' prior experiential learning.

Once the Assessor has determined the type of assessment to be conducted, the Assessor will then develop a Test Specification Table (TST). A TST lists the test items prepared by the Assessor based on the specific course learning outcomes. This is to ensure that a fair and comprehensive assessment is being made.

The TST along with the actual assessments will be internally moderated and endorsed by the Programme Assessment Committee (PAC) to ensure the appropriate quality, and validity of the assessment tasks in terms of their alignment with the CLO.

5.2 Portfolio

A Portfolio is a formal document that contains a compilation of evidence documenting the students' prior experiential learning and their articulation of learning acquired over a period. This includes students' working experience, training and workshops that they may have attended, or other informal and non-formal experience.

The Portfolio is to be prepared by the student with the objective to demonstrate that the experiential learning acquired is relevant and specific to each of the learning outcome for a particular subject. The student will be required to submit the Portfolio Submission Form (please refer to Appendix 6).

In submitting the Portfolio, the student must ensure that they meet the assessment criteria by providing evidence that are relevant and sufficient to indicate mastery of the learning outcomes of the subject that the student is applying credit award for.

A student may be required to attend interview or undertake any supplementary assessment to substantiate the evidence submitted for the Portfolio. The Portfolio must be prepared in English.

The Portfolio is to be submitted according to the timeline informed to the student by the APEL.C Unit. Should student fail to submit the Portfolio according to the deadline given without prior and valid notice to the APEL.C, it will be deemed void and null, and the application process will cease.

The appointed Assessor will evaluate the Portfolio. During the evaluation process, assessors must ensure that the contents and evidence of the Portfolio submitted by the student reflect the achievement of the course learning outcomes. The Assessor may consult the student's Advisor should there be any issues with the evidence provided by the student. One or several assessment types as outlined in Table 4: Methods and Types of Assessment or Validation below may be used by Assessor to validate the evidence and claims put forward by the student. This ensures that the competency level of the student is in line with the learning outcomes of the course assessed.

- **Student:**
 - To fill out **Portfolio Submission Form** (refer to **Appendix 6**)
 - To prepare and document portfolio with the objective to demonstrate the attainment of each learning outcome.

- **Assessor:**
 - To develop an assessment instrument that is valid, credible and fair;
 - To use one or several assessment types to validate the evidence and claims put forward by the student;
 - To ensure student's competency level is in line with the learning outcomes assessed;
 - To ensure that the contents and evidence of the portfolio submitted by the student reflect the achievement of the course learning outcomes.
 - To ensure the integrity and credibility of the portfolio assessment.

- Criteria used to judge a claim for prior experiential learning:
 1. Acceptability: Reliable evidence where assessment can be repeated with the same outcomes; and valid where the assessment clearly identifies the knowledge and skills it purports to assess.
 2. Sufficiency: Sufficient breadth and depth of evidence, including reflection on competences claimed.
 3. Authenticity: Evidence of student's own effort and experience.
 4. Currency: Currency of knowledge/skills in the discipline of the course
