TESTIMONIALS

The supportive teachers truly helped me not only in building up my German language skills, but also in getting useful insights into their culture. Sunway and CDC took care of all other affairs (visa application, accommodation, etc.) which allowed me to focus completely on developing my linguistic abilities. Meanwhile in Germany, the staff of CDC became our little family here, ever ready to lend a listening ear and a helping hand.

The teachers at Sunway and CDC are dedicated and always put students first. Though it gets quite intensive in the earlier levels, my teachers always ensure students are never slacking. They understand how challenging it is to learn a new language but they also understand when fun is introduced to learning a new language, it's the best way for students to learn a new foreign language. The most helpful learning method for me is to use the language daily in verbal conversation with others and being in Germany was really helpful.
