THEME SONG

ALL THE WORLD'S A STAGE

All the world's a stage
And we are merely players on it
As the scenes of life surround us
Some enthrall while some astound us
Writ upon a sagely scripted page

All the world's a stage
And by our entrances and exits
We can soar to heights untamed
And seize our trophies yet unclaimed
And tell a surely handsome tale
Of one who simply dared not fail
As life plays on from age to splendid age
Perchance the players in your act seem poorly cast
Yet nonetheless with virtue you must tread
Valiantly perform through every storm
Pressing on to triumph and to glory unsurpassed

Life is but a play
And Providence the Hand behind it
Read the script and heed the vision
Find the grace to feed your mission
Make your life a grand recital
Fix your gaze upon the title
That will crown your new and glorious day

All the world's a stage!

THE A-LEVEL JOURNEY

Starting my A-level journey felt like trying to solve a Rubik's cube blindfolded—I couldn't quite figure out the twists and turns of those early topics. But nothing like a little elbow grease, late nights, and coffee wouldn't do the trick; then it just clicked. Chemistry class? Exciting and cool, especially the lab sessions. Biology had me hooked from the very beginning. Physics? Well, it was like diving into an exhilarating sci-fi novel. And Math? FUN. But beyond the classroom chaos, it was the squad I assembled that made it all worthwhile. A-levels were like stepping into a whole new dimension, where independence was something, you needed to learn. I do believe it's the perfect bridge to university. Now, as the curtain closes on this wild ride, I can't help but feel like it's ending way too soon. A-levels: the ultimate mixtape of fun, friendship, hard work, determination, and unexpected twists.

ADITHYAN A/L MURALITHARAN Jan 23 intake (Biology, Chemistry, Mathematics and Physics)

Kudos to every A-Level students! You had reached the last chapter of your A-Level journey. A-Level is not smooth-sailing and I knew that you had tried your best to accomplish your goals. So no matter what the results are, all of you deserve a praise. After the graduation, you gonna embark on a new life journey. So, just have fun and enjoy your special day.

Happy Graduation!

FOO KAI XUAN Sept 22 intake (Biology, Chemistry, Mathematics)

This milestone is just a steppingstone for more successes to come! Never stop believing in ourselves. Nothing can stand in our way when it comes to accomplish our dreams.

JULLIANA Sept 22 Intake (Biology, Chemistry, Mathematics)

THE A-LEVEL JOURNEY

My time at Sunway College over the last one and a half years has been a period of significant learning and growth. Initially, the transition from IGCSE to A-levels was overwhelming, with the content being much deeper and more challenging. However, with the guidance from my teachers, I gradually grasped the concepts. Their unwavering support and willingness to offer extra help made a tremendous difference in my academic journey. They not only clarified difficult topics but also provided real-world examples, enhancing my understanding.

Equally important was the incredible group of friends I met. They turned study sessions into enjoyable experiences filled with laughter and mutual learning. Teaching and learning from one another reinforced our understanding and made studying fun. Without them, A-levels would not have been as exciting and enjoyable.

The combined support from my teachers and friends fostered an environment where I could thrive. I was encouraged to challenge myself, and in doing so, developed greater resilience and a stronger work ethic. This supportive environment transformed a potentially stressful period into a rewarding and memorable journey that helped me grow as a person. I will miss my teachers and friends deeply, and I am grateful for the positive impact they had on my A-levels experience.

SOH ZOE Sept 22 intake (Accounting, Economics, Mathematics)

Time doesn't fly, it soars. Let us mark this amazing ending as an extraordinary beginning for the new chapter of our lives.

"You've made it this far—gradually becoming one of those people you used to look up to, the little you would be so proud. Be excited for what lies ahead, because you are going to strive, challenge, grow and build the best roller coaster ride for yourself. Everyone would have one that looks different. So don't get too hung up with comparing because that will limit your imaginations and capability and create doubt. It is important to remember not to conform unconditionally and lose your authentic self. Be your own unique voice and keep challenging the norm. Lastly, keep finding joy that your **inner child craves**, whilst riding the adulting waves as they come. You're in for a ride. Congratulations and good luck you, guys!"
