# THEME SONG

## *In Alas Aquila*

On the Wings of an Eagle

***Ego propono in semper oriri super mediocritatem, defectum et clade, et altum super nubibus, et in alas aquila!***

I resolve to always rise above mediocrity, failure and defeat, and to soar high above the clouds on the wings of an eagle!

---

## **The Theme Song**

Now on a threshold, I turn my gaze  
To the journey that life has in store  
To the future that beckons – my hopes and my dreams  
And trials to endure

Rising above the gathering storms  
Leaving the valleys low  
I'll set my sights on lofty heights  
All primed and ready to go

Reaching for the sky  
With the wind on my wing and my spirits high  
I'm breaking through the dark of doubt  
For the power of my destiny I can't deny  
On the wings of an eagle I fly!

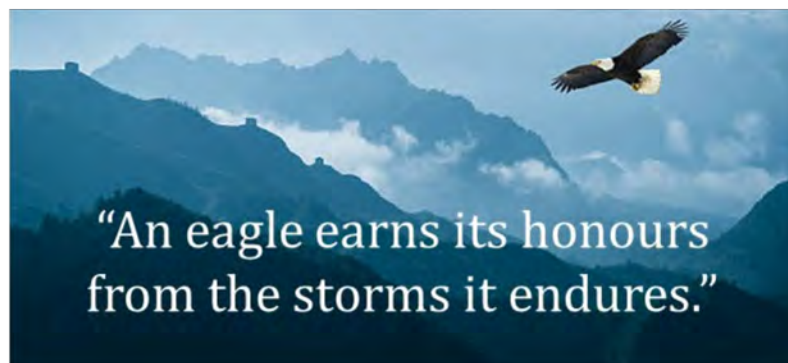

# THEME SONG

Soaring through the sky  
With the wind on my wing and my spirits high  
I'm cleaving through the clouds of fear  
On the might of my youthfulness I can rely  
On the wings of an eagle I fly!

Sometimes a weakness within my soul  
May cause me to fall to the ground  
Then I cast aside my wounded pride  
And rise, thriving on the rebound

Reaching for the sky.....  
On the wings of an eagle I fly!

Soaring through the sky.....  
On the wings of an eagle I fly!

# THE A-LEVEL JOURNEY

It was quite an impulsive decision when I enrolled in the A-Level April 2022 intake. I did not expect that everything would be going through “that” fast until I started my first semester. I could feel the pressure, not only from the lecturers but from the timeline as well as from myself. I found it difficult to cope with lessons at first, but I am very thankful for having such helpful lecturers throughout this journey. They are always available and ready to help. Special shoutouts to my economics and accounting lecturers who have been extremely patient with me during the one-to-one consultation sessions. Sunway College is definitely the most happening campus around, packed with activities and life. I will always cherish every single moment here!

**LEE KIAN H'NG** *April 2022 Intake* (Accounting, Economics, Mathematics and Psychology)

I came into Sunway, filled with dread from the incoming academic tribulations, just as the many students before me. What I wouldn't know, is how fleeting the past 18 months would be—and how the experiences I've managed to collect would forever resonate in me for the rest of my life. The most insightful moments weren't derived from the four walls of the classroom alone, but from the community in which this institution fosters.

From superlative lecturers, whose unparalleled dedication to go the extra mile has helped a myriad of students like me achieve their dreams, to inspiring classmates whose resilience and sheer passion has served as an unwavering source of inspiration throughout the schooling year, Sunway has never fell short of hosting the most adept people I've ever met. For this, I'll be eternally grateful, and wish the graduating class nothing but courage and luck in the next leg of their journey. Godspeed, always.

**GOH HUEY JIN** *January 2022 Intake* (Economics, Mathematics and Further Mathematics)

Sunway was an experience worth living. The challenge A-Levels brought, although stressful, was an important lesson in life, which I'm glad to learn. The challenge to push myself as far as possible greatly contributed to my discovery of pushing myself to my very best.

Life itself in Sunway will be one I look back with nostalgia. Living at Sun-U Residence, I was able to explore the many places the city provided. The people I have met throughout my journey are especially something I hold dearly in my heart (from dormmates, to fellow peers of A-Level). The lecturers I had the opportunity to learn from, like my history lecturer who fueled my hunger towards A-Level, and my psychology lecturer, who has been a kind-hearted and supportive lecturer, will be highly appreciated, looking back.

**SHANE YOU JING MCALEAVEY** *January 2022 Intake* (Biology, Economics, Mathematics and Psychology )

The Sunway A level experience is definitely one which has been challenging yet highly fulfilling. I've made some incredible friends along the way and had some amazing lectures who truly pushed me to go above and beyond. The journey throughout college is definitely one to remember and cherish, as through the help of my friends and lecturers, I can thank them for the person I am today. Sometimes it's hard to believe college is already over, so to all the newcomers I say this despite the struggles you my face, cherish the college experience and enjoy it till the very end.

**SOHAIL IMRAAN BIN ZAKIR HUSSAIN** *September 2021 Intake* (Literature in English, History and Psychology)

# CONGRATULATIONS!

“People say time is gold. It passes quickly when we are having fun. It feels like forever when we are struggling. Life is not a race. Enjoy the journey. Embrace the trials and tribulations.

Memories are etched in time. Although we cannot turn back time, we can forge solid stepping stones that will path our way for the future.

Do not be shy to look back. Remember how we got to where we are today. Dare to dream. Have courage. Have strength. Strive for the very best. Work hard. Play just as hard. **Do not be afraid of making mistakes.** Do not be afraid of laughing at ourselves. Have faith all will fall in place in the future.

A very hearty congratulations to the graduates. May your wishes come true and endeavours be successful!”

So no matter what happens, **keep your head up high** and continue tackling the obstacles to reach your dreams. All the

“You've made it this far—gradually becoming one of those people you used to look up to, the little you would be so proud. Be excited for what lies ahead, because you are going to strive, challenge, grow and build the best roller coaster ride for yourself. Everyone would have one that looks different. So don't get too hung up with comparing because that will limit your imaginations and capability and create doubt. It is important to remember not to conform unconditionally and lose your authentic self. Be your own unique voice and keep challenging the norm. Lastly, keep finding joy that your **inner child craves**, whilst riding the adulting waves as they come.
